Ever since she left me  
I sure feel all alone  
A little misunderstanding  
I can't get her on the telephone  
Hanging out down on Main Street  
Living in a different world  
Standing around with the gang on the corner  
Talking about my girl

My girl - She was the world to me  
She's gone - Away across the street  
My girl - Is just a memory  
She's been so long away

She didn't have to leave me  
She didn't have to run  
She didn't have to go without a word to anyone  
I hope she's doing alright  
I got no way to know  
Unless she gets to hear this song  
Hear it on the radio  
My girl - She was the world to me  
She's gone - And that's a tragedy  
My girl - Is just a memory  
She's been so long away

[Break]

I hope she gets the message  
Got to get back, you know  
Gonna track her down, I'll find that girl  
Gonna tell her that I love her so  
Put the word on the grapevine  
Spread it all around the world  
Sooner or later I know I'm gonna get her  
I'm talking about my girl  
My girl
