"Resurrection"

Free at last
Finally tasting happiness
Five years of hell for nothing
Trapped inside the minds of failures

I wise man once said
That which does not kill us makes us stronger
But we were dead
So are we now invincible

Determination, perseverance, resolution, resurrection

Final straw
Underlining ignorance
Consumed by greed and hate
... can't make this out

Reality can't tear
Wasted good time just to start all over
Treated like shit
Pushed aside and expect to... something, something

We have become so god damn powerful

All the beatings you gave us, we will use them against
you

Free at last
Finally tasting happiness
The resurrection
