Riding my bike to the store with my friends and comin'
out with a blue slurpee
lighting a match to a fuse and running really fast to get
away from 80

hop on your Huffy let's go ride down suicide
moon walk to beat it with a grass stain and scratch on
your knee

state of the art, pistol grip, black joystick I'm gonna kick
your ass at Frogger

Luke Skywalker, Han Solo, light saber I wanna have my
way with Leia

hop on your Huffy let's go ride down suicide
moon walk to beat it with a grass stain and scratch on
your knee

hello Commodore and Barrymore
right foot red and laid out on the floor
gonna figure out this colored cube
got a pair of pants that parachute
