public day
not a breeze
not a problem
they could have seen
green light leaving ground
one more time
to the line
three inside
for what who really cares
our screams won't make a sound

oh no
uh oh
send somebody for us
oh no
uh oh no
oh no
uh oh
send somebody for us
oh no
its too late

red light on
blinking wrong
signal gone
cut off from everything
eyes wide vertical
black out mass
welcomes us
not a thing it seems could help us now
all mass broken down

oh no
uh oh
send somebody for us
oh no
uh oh no
oh no

uh oh
send somebody for us
oh no

its too late

why can't they show us the way
show us
show us now

we're drifting
we're listing
all systems going nowhere
until the
to where the
so this is how it will end
oh mother
oh father
we're closer now than we've ever been
why can't we see the light

oh no
uh oh
send somebody for us
oh no
uh oh no
oh no
uh oh
send somebody for us
oh no
its too late

why can't they show us the way
show us
show us now
