Bring It On

Fame you're claming is the top of the world
But the stage i'm claming is the top of the world
And love, I'm feeling when people connect
But when you're rocking the crowd, you're getting more
that respect

And if you're wondering, I've got plenty of foes
I'm making plenty of friends, and many more foes
But as the audience grows, security knows
Stopping me now is kind of serious

Were used to driving what they call armageddon
I think we made it through this lump
But who really cares where were heading
Cause now you mother fuckers got a reason to jump!

So lets make something out of it
This way we can all relate
worldwide, we collide
This is how we communicate

So lets make something out of it
Whoever thought we would see the day
I can't believe we did it
So lets drift away

Hate I'm feeling, you don't really get it
But hate can get you in some serious shit
And time is something that may change me
but i can't change time, so fuck it

I've been stumbling, through these thoughts That i
want
The fact that i can be delerious
But as the audience grows, security knows
Stopping me now is kind of serious

Were used to driving what they call armageddon
I think we made it through this lump

But who really cares where were heading
Cause now you mother fuckers got a reason to jump!

So lets make something out of it
This way we can all relate
worldwide, we collide
This is how we communicate

So lets make something out of it
Whoever thought we would see the day
I can't believe we did it
So lets drift away

Bridge:
(we see good things changing and things go away
