Check it out, its the outlaw white dog
often called by my alias 'polar bear'
brain tied like the S & M freak shit
cold like the ice your servin up my drinks with
stick shift, fuck the automatic
rollin up in third gear guess its just a habbit
and all you freaky bitches reachin out to grab it
dont hesitate cos you can have it. im a stab it
demolishon came to crush the mission
just in time for you maniacs to listen
and it aint nothin, cos I dont take it serious
my flow is cold like the weather in siberia
I keep your head bobbin, like a novelty
and all them turkey MC's wanna gobble me
but im a shark in my underground fish tank
and I dont give a shit what those muthafuckers think
B-Boy with a taste for the metal
a taste for a fine rhyme and I aint gonna settle
if you dont like it you can scratch it from these nuts
bitch
polar bear aint a cracker you should fuck with
boogaloo shinin like a diamond
momma went and bought the kid a mic now he's
rhymin
and now his hated cos everybody played it
but they just hatin cos this muthafucka made it

(CHORUS)

Get a life, get a muthafuckin life
you dont wanna see what I can do with a knife
You dont wanna be my enemy I promise you
if you do muthafucka bring it on X2

ah hell, let me tone it down
pour me up a another double shot of the crown
get this party hoppin when I step into your town

I came to boogie down cos I dont give a fuck
I dont ride in limos cos limos make me car sick
I aint goin out like that dancin with the stars shit
I dont wait in line cos Im always on the guest list
anywhere I go always leavin with the best bitch

and all my boys get the pick of the litter
that girl you came with I suggest you forget her
North Carolina, its my home land
Im home grown, just a kakalaky mofo
A redneck who never had a dollar
now im makin people all around the world holler
and now his hated cos everybody played it
but they just hatin cos this muthafucka made it

(CHORUS)

Get a life, get a muthafuckin life
you dont wanna see what I can do with a knife
You dont wanna be my enemy I promise you
if you do muthafucka bring it on X2

Dont let the world bring you down, Down. X2

Polar bear, bustin up the endone
make a sucker jump straight out the window
keep it get low kid thats for shit flow
like an asshole, bitch its official

Bring it on

(CHORUS)

Get a life, get a muthafuckin life
you dont wanna see what I can do with a knife
You dont wanna be my enemy I promise you
if you do muthafucka bring it on X2
