"Lean On Me"

My world, your world, angry, happy
Downward spiral, system breakdown
Nauseous, panic, bring on havoc
So reach out with patience
And hold me while I hold you

I can't solve your problems today, oh no
But you can lean on me now

Distance grows fonder, sincere I wonder
Lover or ally, cleanse me, don't try
Torture, cave in, bruise me 'til I say when
'Cuz I've got no patience
So hold me while I hold you

I can't solve your problems today, oh no
But you can lean on me now
I can't solve your problems today, oh no
But you can lean on me now

I don't ever wanna see you cry no more, no more
I don't ever wanna see you cry no more, no more
I don't ever wanna see you cry no more, no more
I don't ever wanna see you cry no more, no more

No more, no more
(See you cry no more)
No more, no more
(See you cry no more)

I can't solve your problems today, oh no
But you can lean on me now
I can't solve your problems today, oh no
But you can lean on me now
