Stop the world...
Stop the world...
Stop the world...
Stop the world...
Stop the world...
Stop the world...
Stop the world...
Stop the world...

I'm living life in the fast lane
No time to feel any pain
The way you were brought up left you so stuck up
Now all you are is just one big fuck up
The liars, the beggers, the pushers and theives
Never get you what you really need
And it's only now that you just find out
All they wanted was to make you bleed

Where did all go? What's it all mean?
???????????????????????????????????
Where am I going? Where have I been?
What's the circumstances of living here?
You drive yourself nuts trying to figure this out
Finding the answer to what lifes about
But the moment you ask the less that you see
we're all apart of this one track hypocrisy

And the bible blows - ????
Fall to their knees - They worship me
And the TV plays - It's simon says
Can I make this fit? GET ME THE FUCK OUT OF HERE!

Stop the world! Stop the world!
I wanna get off - I can't take this bullshit
This shit's so bad it's making me cough
This place is a fucking hell
I'm so tired of the bullshit smell
Mess with me I'm bound to get tough
Stop the world - I want to get off!

Every day is like a sentence

??????????????????????????
Before I sin - There's no repentence
You are the sourcer's apprentice
You live and cry for the dying
And yes there is no denying
That the ???? you call is going to save us all
Instead you find they are lying

And the bible blows - ????
Fall to their knees - They worship me
And the TV plays - It's simon says
Can I make this fit? GET ME THE FUCK OUT OF HERE!

Stop the world! Stop the world!
I wanna get off - I can't take this bullshit
This shit's so bad it's making me cough
This place is a fucking hell
I'm so tired of the bullshit smell
Mess with me I'm bound to get tough
Stop the world - I want to get off!

I want to tell you- it's hard to find
People like me say it all the time
But the truth is
You gotta be smart
Stick up for yourself
Take it to your heart

And the bible blows - ????
Fall to their knees - They worship me
And the TV plays - It's simon says
Can I make this fit? GET ME THE FUCK OUT OF HERE!

Stop the world! Stop the world!
I wanna get off - I can't take this bullshit
This shit's so bad it's making me cough
This place is a fucking hell
I'm so tired of the bullshit smell
Mess with me I'm bound to get tough
Stop the world - I want to get off!

Stop the world...
Stop the world...
Stop the world...
Stop the world...
Stop the world...
Stop the world...
Stop the world...
Stop the world...
