(Verse 1)

You want me to stay
But you say let the past go
I don't wanna leave
But I will if I can't grow
Just blame it all
On the things that we don't know
But baby we can't fall apart

(Pre-chorus)

And I know
Right now you don't understand it
But it's gone come in handy
No matter where you are (Yeah, Yeah, Yeah)
You can fly to the sun and the moon
But you gotta come down soon
Cause in love is where we are

(Chorus)

Ba-da-de-ah-da-ba-ba-ba (OHH)
Ba-da-de-ah-da-ba-ba-ba-ba (OHH YEAH)
Don't let this come between us (YEAH)
Ba-da-de-ah-da-ba-ba-ba (OHH)
Ba-da-de-ah-da-ba-ba-ba-ba (OHH YEAH)
Don't let this come between us

(Verse 2)

I don't always see it
How you see it but I love you
We been through some things
Were still here what we gotta do
Throw out the small things
I know we got issues
And baby we both play a part

(Pre-chorus)

But I know
Right now you don't understand it
But it's gone come in handy
No matter where you are (Yeah, Yeah, Yeah)
You can fly to the sun and the moon
But you gotta come down soon

Cause in love is where we are, yeah

(Chorus)

If what we have were gonna keep it

Cause it can only get better (Yeah, Yeah, Yeah)

Cause it can only get better (Yeah, Yeah, Yeah)
