The thoughts you have of me are old
I guess you never thought I'd grow
I'm not the girl you came to know
Can't be your fool anymore
Nights you left me lonely I won't forget
You said I'd always need you don't count on it
'Cause I found a new love and he's all I need
And so it's
Bye, Bye baby, bye bye baby
Bye Bye baby, bye bye
Bye, bye, bye, bye
Just keep your words of love and care oh
Now I see through you as if yo're not there
No you can't hurt me no more
You can't make me stay
I'll get my things and I'll go

Baby I'll be on my way
Nights you left me lonely I won't forget
You said I'd always need you don't count on it
'Cause I found a new love and he's all I need
I'm saying.
Bye, Bye baby, bye bye baby
Bye Bye baby, bye bye
Bye, bye, bye, bye
Bye baby you know I gotta go
I can't let you hurt me no more
It's over, it's over
Bye baby you know I gotta go
I can't let you hurt me no more
It's over
Bye, Bye baby, bye bye baby
Bye Bye baby, bye bye
Bye, bye, bye, bye
