### "I Love My Leather Jacket"

I wear my leather jacket like a great big hug,  
Raidiating charm, a living cloak of luck,  
The only concrete link with an absent friend,  
A symbol I can wear till we meet again  
It's a weight around my neck  
While the ..... is free,  
Both protector and reminder of mortality,  
It occurs I cannot shirk responsibilits  
From a teacher turned a pupil it's a give to me.  
Cos I love my leather jacket, and I wear it all the time.  
I love my leather jacket.

I love my leather jacket, and I wear it all the time.  
I love my leather jacket.

I love my leather jacket,  
I love my vanished friend.  
I love my leather jacket,  
I love my vanished friend.

I love my leather jacket. (etc)
