Do do do do do...

I worked so hard to get me a man
Don't try to take him away
I love my man like nobody can
Don't try or you're gonna pay

You've been getting too close
You've been going too far
Who do you think you are
Some kind of star

You're heading for a red light
Hot night, bad fight, dynamite
Red light, hot night
Bad fight, dynamite

Red's the color of hot
Hot's the fever I got
Bad enough it could burn you

Red is all I can see
Hot is how it'll be
Bad for you if you mess with me

Do do do do do...

Now I don't want you hanging around
My man is too hard to hold
But if you plan on hanging around
I plan on stopping you cold

Cause I'm ready to rock
And I'm ready to roll
I'm raging out of control
Look out below

You're heading for a red light
Hot night, bad fight, dynamite
A red light, hot night
Bad fight, dynamite

Red's the color of hot
Hot's the fever I got
Bad enough it could burn you

Red is all I can see
Hot is how it'll be
Bad for you if you mess with me

Do do do do do...

Don't mess with me now, baby
You're gonna drive me crazy
Don't mess with me, yeah
Don't mess with me

You got that, you got that fever, uh huh
You got that fever, yeah, yeah, yeah
Don't mess, don't mess
Don't mess with me now

Red light, hot night
Bad fight, dynamite

Red light (I'm talking bout a real red light)
Hot night (I'll give you such a heck of a fight, yeah)
Bad fight (Don't you try to take my man)
Dynamite (I wanna hold on long as I can, yeah)

I worked so hard to get me a man
Don't try to take him away
I love my man like nobody can
Don't try or you're gonna pay

I am ready to rock
I am ready to roll
I'm raging out of control
Look out below

You're heading for a red light
Hot night, bad fight, dynamite
A red light, hot night
Bad fight, dynamite

Red light (my man, I wanna hold on)
Hot night (just as long as I can)
(I said a red light) bad night
(A hot, hot night, baby, do it now)...
