It's the kind of night that dreams are made of  
Not a cloud in the sky and the full moon above  
I could swear the stars have all been aligned  
To be leading to this moment in time

Summer winds breathing down our necks  
It's too early to go home yet  
I lay my head down on your chest  
Our hearts are pounding together  
I want every beat to last forever

Hold me until we find a way  
Of making time stand still  
Don't waste one kiss  
Oh, I wanna remember this  
Oh, I wanna remember this

As we lie here in the soft and quiet  
I want to take this night and memorize it  
Love can be here today and gone tomorrow  
This could be all we get for all that we know

Feel your touch upon my skin  
Don't ever wanna leave the space we're in  
Or forget the look on your face just then  
Let's stay lost in the shadows  
I don't ever want to let you go, so

Hold me until we find a way  
Of making time stand still  
Don't waste one kiss  
Oh, I wanna remember this  
Oh, I wanna remember this

Long as I have had to wait  
I don't want this night to fade

Hold me until we find a way  
Of making time stand still  
Don't waste one kiss  
Oh, I wanna remember this  
Oh, I wanna remember this

Losing myself in your kiss  
No it doesn't get better than this  
Oh, I wanna remember this  
Oh, I wanna remember this
