He calls to tell me he'll be late again
There's a problem at the office
So don't wait up for him
And I guess I shouldn't worry but I do
Cause a woman senses changes
Her man is going through

He's changed the way he's worn his hair for years
And bought some shirts in colors
I've never seen him wear
And when we touch that old time feeling's gone
There's a problem at the office
And it's hitting close to home

There's a problem at the office
He can't seem to solve
And it's taking him away from
Everything he loves
Oh and if it's what I think it is
It's gonna break my heart
There's a problem at the office
And it's tearing us apart

I've only seen her twice

He says she's new
But there's something there between us
And my heart feels it too
Oh the way she looks at him it's hard to miss
There's a problem at the office
I think I know who she is

There's a problem at the office
He can't seem to solve
And it's taking him away from
Everything he loves
Oh and if she's who I think she is
It's gonna break my heart
There's a problem at the office
And she's tearing us apart

And I hope and pray it's not too late

To try and work things out
There's a problem at the office
We need to talk about
