"Before I Fall"

Visit "[Before I Fall](#)" on MotoLyrics.com

All of my life
My heart's been waiting
To give someone love
Without it breaking

Time after time
Love passed me by
But with you I've got a chance to
Give it just one more try

Before I fall in love again
Before I give my love to you
I've got to feel this love is real
Before I fall with you

You've got the touch
That I have longed for
This is the one
That I had hoped for

Let's take our time
At least through the night
And if tomorrow comes around
And we haven't changed our minds

Before I fall in love again
Before I give my love to you
I've got to feel this love is real
Before I fall with you

You say you'll never leave me
I feel the same way too
In time we'll know if all we feel is true

Before I fall in love again
Before I give my love to you
I've got to feel this love is real and true
Before I fall with you
Before I fall
Before I fall
