I see you try to turn away
I hear the words you want to say
I feel how much you need to hide
What's happening inside you tonight

Come, meet my eyes one moment more
Our eyes are different than before
This night, so beautiful and strange
This night begins to change who we are

Don't turn away, it's only love
Quietly coming to you
Whispering through you
Take my hand, it's only love
Let it come through you slowly
Don't be afraid, it's only love

We touch, the dark begins to stir
We can't go back to where we were
Don't be afraid to make it real
Don't be afraid to feel tonight

Don't turn away, it's only love
Only a touch that frees you
Let it release you
Take the chance, it's only love
Open your heart and show me
Don't be afraid, it's only love

Don't close your eyes
Don't hold it in
Reach out to me
Let it all begin

Don't be afraid, it's only love
Only a touch that frees you
Let it release you
Take the chance, it's only love
Let it come through you slowly
Open your heart and show me
Don't be afraid, it's only love
