When I look at you  
What I always see  
Is the face of someone else  
Who once belonged to me  
Still I can hear him laugh  
Even though that melody plays on  
He's gone

When I look at you  
He is standing there  
I can almost breathe him in  
Like summer in the air  
Why do you smile his smile  
That heaven I'd forgotten eases through  
In you

If you could look at me once more  
With all the love you felt before  
If you and I could only dance into the past  
And find that love we knew  
I'll never take my eyes away from you

When I look at you  
He is touching me  
I would reach for him  
But who can hold a memory?  
And love isn't everything  
This moonlight on the bed will melt away someday

Oh, you were once that someone  
Who I followed like a star  
Then suddenly you changed  
And now I don't know who you are  
Or could it be that I never really knew you from the start

Did I create a dream  
Was he a fantasy  
Even a memory is a paradise for all the fools like me  
Now remembering is all that I can do  
Because I miss him so  
When I look at you
