"Destroy And Dominate"

I am the bastard son
The expendable one
War is in my blood
Rage is in my heart

The lone wolf inside me

No home, no family
Just wanted serenity
But you pushed, you pushed me
You pushed me

The lone wolf inside me
Needs to be set free

One by one I'll crush you all
Day by day, destroy and dominate
Blood, blood for blood
Destroy, destroy and dominate

Rejected by society
The same one that created me
And I, I don't care what you say anymore
I am no longer your slave

The lone wolf inside me
Has finally been set free

One by one I'll crush you all
Day by day, destroy and dominate
Blood, blood for blood
Destroy, destroy and dominate

Dominate

One by one I'll crush you all
Day by day, destroy and dominate
Blood, blood for blood
Destroy, destroy and dominate
