You're a man who lives in solitude  
Never knowing what life could bring you  
You have to raise your fists just to break through  
All the voices inside your head that make you

You're a man who's filled with attitude  
Don't you know that everyone hates you  
It would be so simple for me to kill you  
Mark my words my man I will stop you

Killing the beast killing the beast kill

You'll always see me  
You'll always need me  
You'll never last one minute without me

You can't take away all the lies that you told me  
But I can take away all the feelings that I had for you

You'll always see me  
You'll always need me  
You'll never last one minute without me  
I'm killing the beast  
Killing the beast  
Tear his heart out
