A slave to my thoughts daily
I finally lost my craving
Need this to end real soon
You come then you go away
No way, I can make it through this
Can you feel my heart fade away?

Do you remember what it was like
When you told me no?
Do you remember what it was like
When you told me no?
Do you remember what it was like
When you told me no?
Do you remember what it was like?

Feeling, I can't figure me out
I'd try but I'm not allowed
Where do I go from here now?
Feeling, I can't figure me out
I'd try but I'm not allowed
Where do I go from here now?

My friends can't explain
This to me, when I see you
I don't see me, I feel I'll never gain
Your affection is a must to me
But reflections of past life won't let me be
Right now all hope is lost, right now all hope is lost

Do you remember what it was like
When you told me no?
Do you remember what it was like
When you told me no?
Do you remember what it was like
When you told me no?
Do you remember what it was like?

Feeling, I can't figure me out
I'd try but I'm not allowed
Where do I go from here now?
Feeling, I can't figure me out
I'd try but I'm not allowed

Where do I go from here now?

Save some for me
Save some for me

There's still blood for nine
There's still blood for nine
There's still blood for nine
There's still blood for nine

Save some for me

There's still blood for nine
There's still blood for nine
There's still blood for nine
There's still blood for nine

Do you remember what it was like
When you told me no?
Do you remember what it was like
When you told me no?
Do you remember what it was like
When you told me no?
Do you remember what it was like?

Feeling, I can't figure me out
I'd try but I'm not allowed
Where do I go from here now?
Feeling, I can't figure me out
I'd try but I'm not allowed
Where do I go from here now?
