Though the miles are between us  
I thought our love would strengthen  
As it has so many times before  
But something has happened  
I can see it in your eyes  
I can feel my world is crumblin'  
And the blues are at my door

The last letter that you wrote  
Was on a blue piece of paper  
That old feeling's back  
The clouds are moving in

The beginning of the end is near  
I feel your love has faded into darkness  
It seems I have no friend  
I feel the blues moving in

Oh it's not the words you wrote  
That made me sad and broken-hearted  
That's put me in this sad shape I'm in  
Between the lines are mixed emotions  
And there's teardrops on the paper  
You said that's all I'll write today  
I'll close for now old friend

The last letter that you wrote  
Was on a blue piece of paper  
That old feeling's back  
The clouds are moving in

The beginning of the end is near  
I feel your love has faded into darkness  
It seems I have no friend

I feel the blues moving in

My state of mind is desperate  
And this hole that I'm sinking in

Gets deeper while I'm digging to get out  
Oh please give the right answer  
To the questions I'm asking  
Tell me you still love me  
That would turn my world about

The last letter that you wrote  
Was on a blue piece of paper  
That old feeling's back  
The clouds are moving in

The beginning of the end is near  
I feel your love has faded into darkness  
Seems I have no friend  
I feel the blues moving in  
I feel the blues moving in  
I feel the blues moving in
