Love is but a song we sing
Fear a way we die
You can make the mountains ring
Or hear the angels cry
Though the dove is on the wing
You need not know why

Come on people now
Smile on your brother
Everybody get together
Try to love one another right now

Some will come and some will go
We shall surely pass
When the wind that left us here
Returns for us at last
We are but a moment's sunlight
Fading on the grass

Come on people now
Smile on your brother
Everybody get together
Try to love one another right now

If you hear the song I'm singing
You will understand
You hold the key to love and fear
All in your trembling hand
One key unlocks them both you know
It's at your command

Come on people now
Smile on your brother
Everybody get together
Try to love one another right now

Come on people now
Smile on your brother
Everybody get together
Try to love one another right now

Come on people now

Smile on your brother
Everybody get together
Try to love one another right now
