"Toys In Time"

Visit "[Toys In Time](#)" on MotoLyrics.com

Don't feel bad when the nice things you've had
Get tattered and must be laid away
The nice things you had
They're so many grains of sand
And they're only the toys in time's great game
Time gives and time takes away

And don't look back when your childhood has ended
You knew it couldn't last forever
The young things the spring brings
Snow covers over
And they're only the toys in time's great game
Time gives and time takes away

And don't ask why when a close friend dies
Though it feels like a page has been ripped from your
life
We run our race in an hourglass in space
And we're only the toys in time's great game
Time gives and time takes away
