

China Crisis "Back Home"

Visit "[Back Home](#)" on MotoLyrics.com

This is the only place to be
fooling around on our hands and knees
this is the only place to be

One small kiss
and I sing inside
one more kiss
and you're mine all mine
this is the only way to be

Home
There is no mistaking
home
that's the road we're taking

This is the only world I know
of man made God
and the God given soul

this is the only world I know

One day rich and the next day poor
the word is love
and love is the law
this is the only world I know

Home
There is no mistaking
home
that's the road we're taking

This is the only way to win
stop all the cheating
and be born again
this is the only way to win
