It's everything
Yes, it's everything

(It's everything you'll ever know)
(It's everything you'll ever need)
(It's everything you'll ever see)
(It's everything you'll ever feel)

Wonderment, pride and pleasure
is everything I feel when we're together
Safe way to be
It's everything you need, when you're with me

Stay, when do I learn to stay

and love, what do I know 'bout love
It's everything, yes it's everything

Influence, guide and treasure
is everything we need to last forever
Safe way to be
It's everything I need, when you're with me

Stay, when do I learn to stay
and love, what do I know 'bout love
It's everything, yes it's everything
