June bride
Johnny XXXX in white
side by side
a happening thing inside
name the day
waiting will get us nowhere
you decide
what you wanna do this time

This time
what you wanna do this time
I'm yours, you're mine
forever and a day
I'll be always in your company
in XXXXX
this time

Sunny side
there you are, keep me in line
XXXXXXXXXX
taken for the very first time
First time
taken for the very first time
I'm yours, you're mine
forever and a day
I'll be always in your company
in XXXXX
this time

I'm struggling under the strain of this
happy man I've got all this
XXXXXXXXXXXX
kitchen floor in the afternoon
I'm struggling under the strain of this
happy man I've got all this
