

China Crisis "Worlds Apart"

Visit "[Worlds Apart](#)" on MotoLyrics.com

You're so cold
resisting only your feelings
Worlds apart
and your world's lost all meaning

I, I try
but nothing you say moves me
some, some day
maybe I'll hear more clearly

Laughing loud
but I felt uninvited
away from the crowd
the way they talk it's frightening
I, I try
but nothing you say moves me
some, some day
maybe I'll hear more clearly

Worlds, worlds apart
Worlds, worlds apart

A stranger to me
and I could have sworn I knew you
and worlds apart
and my worlds lost all meaning
