It don't turn me on when you say my ass is fat
I ain't feelin' you just because your ride is new
So you want to get pissed when I don't respond
Want to call be a bitch well I am not the one
Not for you not your crew your all the same
You ain't got no game

You better watch your mouth, suga
You better watch your mouth
Now I don't know what you used to
But I grew up in the south
And mama always told me that a boy ain't right
If he calls out your name
And I say boy 'cause that's what you are
It sho don't make you a man

I like the guy in the baby blue
All he did was smile when I walked through
Maybe he'll ask me for a dance
He's kinda cute I might give him a chance
Dang who's this fool all up on me
Running his mouth disrespectfully
I hope he don't think he came here with me
This the kind of shit I'm talkin' bout ya see?

You better watch your mouth, suga
You better watch your mouth
Now I don't know what you used to
But I grew up in the south
And mama always told me that a boy ain't right
If he calls out your name
And I say boy 'cause that's what you are
It sho don't make you a man
(Repeat to fade)
