I never walked on water never saw
A reason to be going out that far
I never found a star that made a wish
But now the sky is listening to my hart

They can brake me, make me
If they want they can chase me
Love me, Hate me I dont care anymore

[Chorus:]

Till you, I was nothing but lonely nights
There was nothing but sad goodbye's
For me to fall through
Come true my dreams are awakening
Somebody is making me
The only one in the room
What nobody could do,
Nobody till you...

And the more you talk the less I fear
No matter what you say we are still in the same
hemisphere
And there's comfort in just knowing that
Where ever I go a part of me is staying here with you

So take me shake me
If you want you can chase me
Love me for me and stay away from the door

[Chorus]

What kind of world would it be
If you ever went away
Oh and I, I can't go back to what
I had cuz it will never be the same

[Chorus 2x]
