VERSE1

I want to let go, I'm weary and bound
I'm giving it up; I'm laying it down, oh
Take it away, out of my hands
Out of my reach and safe in your plans.

PRE-CHORUS

'Cause I need to know, that you can hear me, yeah
Fill me with your peace, yeah, and cover me gently,
yeah
Like only you can...

CHORUS

So take me, and hold me, break me and mould me, oh
Take me, and hold me, break me and mould me
I want to let go

VERSE2

Cradle my hands, knuckles so white
Open them up, and say it's alright, oh
Show me a plan, call it your own
Make it a journey, leading me home

PRE-CHORUS

'Cause I need to know, that you can hear me, yeah
Fill me with your peace, yeah, and cover me gently,
yeah
Like only you can...

CHORUS

So take me, and hold me, break me and mould me, oh
Take me, and hold me, break me and mould me
I want to let go
