Sometimes I look in a mirror and
I feel so jaded
17 and i've seen
more than my eyes should have ever seen
staring at the ??? across the street
staring at his own feet
If we meet
I'll tell him that we don't need anything
but attitude and a body to move
and a mouth to kiss
It comes down to this
Beats a chemical fix, and it don't cost nothing baby

Oh oh oh

Love love love is a beautiful thing
It makes your heart go bang
Got love to get it
Oh Cause I'll tell you
Love love love is a beautiful thing
It makes your heart to bang
Got love to get it
Oh you've got everything

I've got 5 dollars
3 pairs of jeans
and a beat up cell phone
I'm all alone
Wish you'd call but
the phone don't even ring
You're already here wearing just a smile
and you're favorite old shirt
Mom's at work
It can't hurt cuz we don't need anything
but attitude and a body to move
and a mouth to kiss
It comes down to this
Beats a chemical fix, and it don't cost nothing baby

Oh oh oh

Love love love is a beautiful thing
It makes your heart go bang
Got love to get it
Oh Cause I'll tell you
Love love love is a beautiful thing
It makes your heart to bang
Got love to get it
Oh you've got everything

Everything gets you nothing if you're lonely
So come on call me
I've got nothing but open arms and a smile for you
Everything that you need is in your reach yea
So bump the peach yea
It's the sweetest juice you'll ever taste
You've gotta live this life of
Say it again
You're gotta live this life of
Shout out to the sky

Love love love is a beautiful thing
It makes your heart go bang
Got love to get it
Oh Cause I'll tell you
Love love love is a beautiful thing
It makes your heart to bang
Got love to get it
Oh you've got everything

Love love love is a beautiful thing
It makes your heart go bang
Got love to get it
Oh Cause I'll tell you
Love love love is a beautiful thing
It makes your heart to bang
Got love to get it
Oh you've got everything

Love love love is a beautiful thing
It makes your heart go bang
