I'm right at the edge
Of giving you a medal
For showing off your twisted little heart
And saving me the trouble

Don't try to kiss me
I'll make you miss me
I'm letting go of everything
But I can't forgive your every sin
There's some heavy baggage
and lasting damage
I'd love to erase
I'm letting go of everything
But I can't forgive your every sin
There's some heavy baggage some serious damage

I'd love to erase
But I can't forget your face
But I can't forget your face

You pulled me from my past
You made it feel so painless
I saw what you wanted me to see
But it's too late to save us

Don't try to kiss me
You can't convince me

I'm letting go of everything
But I can't forgive your every sin
There's some heavy baggage
and lasting damage
I'd love to erase
I'm letting go of everything
But I can't forgive your every sin
There's some heavy baggage some serious damage

I'd love to erase

But I can't forget your face
And the feelings that we wasted away

I can't believe you've got the nerve
To cry and beg me to stay

I'm letting go of everything
But I can't forgive your every sin
There's some heavy baggage
and lasting damage
I'd love to erase

I'm letting go of everything
But I can't forgive your every sin
There's some heavy baggage
and lasting damage
I'd love to erase
I'm letting go of everything
But I can't forgive your every sin
There's some heavy baggage some serious damage

I'd love to erase
But I can't forget your face
