I got no hidden agenda here inside
Couldn't stop these emotions if I tried
You're all I wanna do
I got something here waiting just for you

Deep in my heart, that's where you shine
Give you my best, all of the time
For no other reason, no other rhyme, baby

Just because I love you
Just because I love you like the moon and stars it's a
natural fact
Just because I love you
Just because I love you, don't need to second guess,
it's as simple as that

Just because I love you, I really do

Alone, some things I do with only you alone
You drive me to a place I've never known
It intensifies
Every second you're not here to satisfy
All of my wants, all of my needs
Comes with your touch, so good for me
That's why I'm here, and always will be

Just because I love you
Just because I love you like the moon and stars, it's a
natural fact
Just because I love you
Just because I love you, don't need to second guess,
it's as simple as that

You make it easy
Just by being here
You free me baby
You must be doing something right
All of my feelings
They just keep on getting deeper baby
There's no end in sight

Deep in my heart, that's where you shine
Give you my best, all of the time
For no other reason, no other rhyme

Just because I love you like the moon and stars, it's a
natural fact
Just because I love you
Just because I love you, don't need to second guess,
it's as simple as that

Just because I love you
Just because I love you like the moon and stars, it's a
natural fact
Just because I love you
Just because I love you, don't need to second guess,
it's as simple as that
(repeat til fade)
