"Did You Miss Me"

I took a trip out of town
A hundred years underground
Had to swim
Across the sea
Oh, when you were my baby

Oh, Did you miss me in the morning?
Did you miss me in the evening?
When everyone is bound to dream…
And did you run where the wind blows?
Did you ever go where I didn't know?
Oh baby did you miss me?

A hundred years out of town
It's not so long, so I found
Just long enough to get free
Oh when you were my baby
Oh, Did you miss me in the morning?
Did you miss me in the evening?
When everyone is bound to dream…
And did you run where the wind blows?
Did you ever go where I didn't know?
Oh baby did you miss me?
Look at us now
The years fall down
Show me how

Check it out hear the sound
All these walls
Are coming down
That's just you
That's just me
Oh when you were by baby

Oh, Did you miss me in the morning?
Did you miss me in the evening?
When everyone is bound to dream…
And did you run where the wind blows?
Did you ever go where I didn't know?
Oh baby did you miss me?
