Tarantula passes by the window  
No one takes it as a sign  
No one cares which way the wind blows  
Someone's got to change your mind

Every bone has been broken  
Rumours all lost at sea  
Every word every language has been spoken  
Someone's got to set you free

I'm going to wait for you  
I'm going to wait for you

Suicide days suicide suicide nights  
In a wheelchair almost blind  
Someone's going to have to pay the price  
Someone's got to change your mind

I'm going to wait for you  
I'm going to wait for you

Is it just that we must? Is it here that we gear?  
Is it only that we're lonely? It is there that we dare?  
Is it the lies that we fight? Is it whores we adore?  
Is it god with a rod? Taking more more more?

I'm going to wait for you  
I'm going to wait for you

No one knows my name  
No one knows my name  
Walking down the street baby now  
No one knows my name  
No one knows my name  
Walking down the street baby now

No one knows my name  
No one knows my name  
Walking down the street baby now  
No one knows my name  
No one knows my name  
Walking down the street baby now

Walking down the street baby now  
Walking down the street baby now

No one knows my name  
No one knows my name  
Walking down the street baby now  
Walking down the street baby now  
Walking down the street baby now
