Take a journey to find your dream  
It's not as far as it may seem  
Everyday is another step  
So don't get down if you're not there yet

When things get worse than they've ever been  
You'll find the strength that you need within  
So don't give up 'till you find your dream  
No matter how hard it may seem, yea

And to yourself you must be true  
'Cause it's the only thing you can do  
So when it's tough just don't let go  
'Cause we're all stronger than we know

And as we go through the crazy things  
That's the way we're gonna find our wings  
So when it's tough just don't let go  
'Cause we're all stronger than we know  
Stronger than we know-oh-oh-oh  
Yeaaa...

Life is full of impossibilities (stronger than we know)  
You can be one too if you believe (stronger than we know)  
We're all stronger than we know-oh-oh-oh
