Naked on the floor  
thoughts are filling up my brain  
and it's always the same  
cuz your talking to a wall while I'm watching the door  
naked on the floor  
I can't remember what we've done  
I'm sorry but  
I have to run away  
don't worry it's me  
you're ok...

We're living in a city where it's hard to forget  
mistakes  
your faces  
another day begins again  
cocaine fills the brain and the citizens are ok  
surprise  
yuo die  
sunglasses cover your eyes  
We don't mind about tomorrow  
while the sun is going down  
I let myself down again  
I saw you on the corner  
showing teeth to each other ...showing teeth to each  
other...  
the fear to be a loser is painted on your faces  
this is your...  
people are screaming inside themselves  
they're looking for easy joy  
they're filling their brain with a fake  
and nicley wrapped hope this is your...  
We need a new solution! We need a new solution!  
We're crawling in this mud to look  
for a right way  
we try  
dead road  
I've lost  
my soul  
stop and breath  
MDMA fucks the brain  
I need more water  
slowmotion suicide

my nation is on fire  
Someway  
we need to survive  
so hard  
the end seems to far  
I can't  
escape my legs are fucked and my heart is gone.

I saw you on the corner  
showing teeth to each other ...showing teeth to each  
other...  
the fear to be a loser is painted on your faces  
this is your...  
people are screaming inside themselves  
they're looking for easy joy  
they're filling their brain with a fake  
and nicley wrapped hope this is your fall  
people are screaming inside themselves  
they're filling their brain with a fake  
and wrapped hope  
this is your fall  
this is your fall  
faaaaaaaaaaaaaall.....  
We need a new solution!  
We need a new solution!  
We need a new solution!  
We need a new solution!
