"Touch"

I've never know your fucking' feelings And one side of
my heart chose the correctness
Maybe right maybe wrong maybe insane for my inner
wish
Sweet child little child inside me he starts to burn You
have understood but i can't dare
Touch my hand
Crazy senses shout and my question receive one cold
not
It's the second time maybe right maybe wrong maybe
insane
Say me "it's too early" Sweet sin little sin rules my
action and my dreams
I've understood but you can't dare your legitimate dubt
is falling into sin your wonderful smile
