verse 1

i still cant find,the colour of your eyez
as if you were blind,too early for goodbyes
i'd stick with you,through world war 3
i'd write to you,to see how you've been

pre chorus

would it mean anything if i cried
would it faze you if i died

chorus

come back to me , one last time
was it meant to be , i know we'd lie

verse 2

i'd kill for you,to leave this town
so far gone,no one but ourselves
so i fucked up,and killed something great
i'm outta luck and outta things to say

pre chorus

would you notice if i left
i wonder about the memorys you kept

chorus 2x

bridge

erase the memory , straight from your heart
take down the pictures , there already burned
