[Verse 1]

Come with me

Let me walk in through the world that I currently stay in

You can take a look around and tell me if I'm mistaken

You can even talk to everybody that I live with

Maybe you could tell me why everybody's so distant

Is it me or maybe, when I look around daily

I don't even know the people I can put my trust in lately

People that I used to hang with now their actin' to  
different

I'm still the same person why doesn't anybody listen

Can somebody please just explain to me

What happened to the way that we always said we'd be

Right now I dunno why I push through the pain that I got  
through

And I'm losin' hope

[Chorus]

Deafening voices

That frequency inside my head that says

I'm going at it the hard way I focus

Get everything inside out of my brain that claims

I'm going at it the hard way

Voices in my head

[Verse 2]

Come with me

Let me walk in through the world that I currently live in

Not a thing is forgotten, not a thing is forgiven

Nobody can hold their own underneath the weight but

Nobody can take the blame for their own mistakes so

What do you do when somebody lets you down

And you wanna say something but you can't cause their  
not around

Inside you think they know the extent of the pain

But they won't even admit that they were the one to  
blame

Can somebody please just explain to me

What happened to the way that we always said we'd be

Cause right now I dunno why I push through the pain  
that I got through

And I'm losin? hope

[Chorus]

Deafening voices

That frequency inside my head that says

I'm going at it the hard way I focus

Get everything inside out of my brain that claims

I'm going at it the hard way

Voices in my head

[Breaking point]

Can somebody please just explain to me

What happened to the way that we always said we'd be

Right now I dunno why I push through the pain that I got  
through

And I'm losin? hope, give me one reason not to ?.

[Chorus]

Deafening voices

That frequency inside my head that says

I'm going at it the hard way I focus

Get everything inside out of my brain that claims

I'm going at it the hard way

Voices in my head
