While pain and fear  
Will fall down on you  
We'll always be there  
You can't run away

In the shadows of your dreams  
You don't understand what it means  
You look at your fate  
You know it's too late

Chorus:  
Remember  
We're in this together  
We'll keep you in mind  
You're one of our kind

When you look around

You just want to run  
All hope has been gone  
You fall to the ground

And in your darkest hour  
When you scream a night  
We'll bring you the light

We hold your hand  
And stand by you  
Whatever you'll do  
We'll be with you

When you look up  
Into the sky  
There is a star  
It's by your side
