[repeat 2X - *sung*]

Lord live within my heart.. Lord don't you ever stop..
Fill me up with what I need.. just have to ask I shall
receive..

[KRS-One]

Look, look!

Ba-bi-di-ba-bi-dang-a-dang-diggy

How many rappers can actually hang with me?

My style is that Kris-style, it's witty

In they style, I have no more Faith like Biggie

I battle on many levels, I shatter so many devils

'Fore you challenge me you better know the essentials

It's the K to the R to the S, to the uno

You know, if you don't know your crew know

When you hear the thunderin sound, you under the
ground

You can tell by the way we jumpin around

It's the teacher, breakin it down

I'm an upright MC, these others they be crawlin around,
word

[repeat 2X - *sung*]

Lord live within my heart.. Lord don't you ever stop..
Fill me up with what I need.. just have to ask I shall
receive..

[KRS-One]

Yeah yeah, word up, look, look!

You know when the teacher returns, just get ready to
learn

Just get ready to earn, health, love

awareness and money to burn, I'm not really
concerned

how the Benz just turn, 'round the corner

for our sons and daughters to yearn, stand firm

If you lookin at these hooks you becomin a mad worm

Danglin from the pole of the fisher, the corporate fisher

The talent scout and no doubt ready to get ya!

[repeat 1X - *sung*]

Lord live within my heart.. Lord don't you ever stop..
Fill me up with what I need.. just have to ask I shall
receive..

[KRS-One]

Look look look look!

I'm anything BUT regular, not even similar

I get rid of the SIN in ya when I spit at ya, my new
literature

Now who forever been with ya? THE TEACHER!

Who remembers the kid in ya? THE TEACHER!

I'm winnin ya, or winnin a convert when the rhyme
splurt at the concert

Forget the times that hurt, if the mind's alert let the
mind work

Uh! Let the body divert

To get to the top of the mountain, you've got to climb
dirt

So c'mon climb through, don't get stuck lookin behind
you

It'll blind you, however I'm here to remind you

Many of you lost you've got to find you

You'll be found you simply by you finding you, c'mon!

[repeat 4X - *sung*]

Lord live within my heart.. Lord don't you ever stop..
Fill me up with what I need.. just have to ask I shall
receive..
