KRS-One representing Ma 6T va Crack-er  
Cercle Rouge, KRS-One  
Droppin on em like this  
Pick it up, pick it up  
You know what time it is when KRS-One comes through  
Representing all true hip hop culture  
You know how we do

How can they throw you in prison now for long years  
If in reality the black man doesn't belong here  
Have you forgotten how we got to this place  
Why then are all the jails predominantly the black race  
If you dont teach me my culture I dont know who I am  
I dont know the difference between my enemy and my  
friend

So I'm robbin and killin I got nothing to live for  
You turn my father into a boy my mother into a whore  
Now I'm hardcore on the Ave

Watching while people that got me to walk fast  
After beatin us, rapin us and robbin us  
400 years of that's what's inside of us

Take a look at me now I'm really your creation

A technological anti-human mutation

A mutation of a better way of life

You first pulled the knife but to heal it will take my  
whole life

I fought no force on this level

I listen to bass and treble

Thinking that the white man is the devil

Cause who could be so cruel like this

So heartless, so senseless

But I'm taught by the devil

To grow up and be a Devil

To do the same devilish things on another level

However when I act out the mission

You turn around and throw me in prison

You a sucker

Chorus: KRS-One

If you come from France

and you like the breakdance say OHOH (OHOH)  
And If you come from New York  
and you like the way I talk say Yeah (Yeah)

You can kill a man by taking him out of his land  
And putting him in a land he really doesnt understand  
Then teach him to respect Greek mythology like  
Pythagorus, Ptolomies, Socrates  
These people are thieves  
They stole us astronomy, mathematics, all tactics of  
biology  
Even the concept of democracy stolen from the king  
Akhanoton  
Put down the book, use your brain  
If you dont know who you are you are clinically insane  
The board of education cant see that  
Well it deserves to get beaten and robbed by black  
Give me my frame of mind back  
Give me my culture  
But you dont understand that cause you a sucker

Chorus

I see Beauval in the house, Collinet in the house  
Sarcelles in the house, Cercle Rouge in the house  
KRS-One rocks the mike without a doubt  
Turning parties out  
You know what I am about  
Cause we will be here forever I told you  
Soldier floods your mind like Noah  
As you get older you've got to pay attention  
At how you livin hardcore  
You aint a kid anymore grow up, to blow up the spot  
you're at  
Learn the skill and go to the top of that  
Cercle Rouge definitely rockin in rap  
KRS-One I got your back

Chorus

KRS-One with the freestyle rhyme  
Representing Cercle Rouge in France  
All the graffiti artists
