U might as well quit while your at it
U aint going no where
I feel so hollow inside
And it's all your fault
You're the cause of all this pain
Now I'm left here dying

U think u can beat me
It's never gonna happen
U wanna reach the end
It's never gonna happen
Do what u wanna do
It aint gonna happen

I wont let u do this
Not anymore
Ur so vindictive
U always have been
I regret the day I met u, I saw u
Now u don't even remember me
I'm just the voice in your head
Screaming, crying
And telling you "I'm just the voice in your head"

That it aint gonna happen "I'm just the voice in your head".
