No-no-no-not not re-re-ready yo!
Not re-re-ready yo!
We 'bout to drop it steady, yo!
So do it like that, like that, like that, like that, like that,
like that

(Repeat x2)
Now why is everybody so petrified?
(What!)
Petrified?
(What!)
Step aside
And just drop that
(Come on!)
Drop that
(Come on!)
Drop that
(Come on!)
Drop that
(Come on!)

Yeah
How you doin', y'all?
My name's Mike
I'm fooling with the new shit
I'm doing it all night
I like what i do
I do what i like
I could quit and get it back like i'm riding a bike
Like stop
Bring it back, Bring it back

We got that balance keeping us on track
That ya' get when 'ya movin quick, with no slow
You stare like you don't care
But you do it though i know

I know
You really must be so lonely
Puffed up, lookin' tough, but so phony
You and your boys, you don't know me
You really wanna hole me? show me, homie.

Lets get it over with for good
I got a friction addiction i wish you would
Machine shop rockin' when we step inside
And we got everybody so petrified

Now why is everybody so petrified?

(What!)

Petrified?

(What!)

Step aside

And just drop that

(Come on!)

Drop that

(Come on!)

Drop that

(Come on!)

Drop that

(Come on!)

Listen you are not ready

Like children in a building you can't stand steady

It must be the beat so heavy

Cos i'm panic attacks like a crack in the levy

Give you that Robert Plant

Dancing days are back

Feeling all in the track an' in fact

For those knowing the name

I'm back with some brand new crack

You can do it like that

You really must be so lonely

Puffed up, lookin' tough, but so phony

You and your boys, you don't know me

You really wanna hole me?

Show me, homie

Tough talk doesn't mean a thing

you know yourself you know when we're up in a scene

Its machine shop rockin' when we step inside

And we got everybody so petrified

(Repeat x2)

Now why is everybody so petrified?

(What!)

Petrified?

(What!)

Step aside

And just drop that

(Come on!)
Drop that
(Come on!)
Drop that
(Come on!)
Drop that
(Come on!)

(Repeat x2)
No-no-no-not not re-re-ready yo!
Not re-re-ready yo!
We 'bout to drop it steady, yo!
So do it like that, like that, like that, like that, like that,
like that
(Get up)

(Repeat x2)
Now why is everybody so petrified?
(What!)
Petrified?
(What!)
Step aside
And just drop that
(Come on!)
Drop that
(Come on!)
Drop that
(Come on!)
Drop that
(Come on!)

(Repeat x2)
Like stop
Bring it back
We got that balance keeping us on track

Like Stop stop...stop...stop...stop...
