Nothin' ever stops all these thoughts n' the pain
attached to them
Sometimes I wonder why this is happenin'
It's like nothin' I can do would distract me when
I think of how I shot myself in the back again
'Cuz from the infinite words I can say I
Put all pain you gave to me on display
But didn't realize instead of settin' it free I
Took what I hated and made it a part of me
It never goes away [x2]
And now
You've become a part of me
You'll always be right here
You've become a part of me
You'll always be my fear
I can't separate
Myself from what I've done
Giving up a part of me
I've let myself become you
Hearin' your name the memories come back again
I remember when it started happenin'
I see you n' every thought I had and then
The thoughts slowly found words attached to them
And I knew as they escaped away
I was committin' myself to em n' everyday
I regret sayin' those things 'cuz now I see that I
Took what I hated and made it a part of me
It never goes away [x2]
And now
You've become a part of me
You'll always be right here
You've become a part of me
You'll always be my fear
I can't separate
Myself from what I've done
Giving up a part of me

I've let myself become you
It never goes away [x4]
Get away from me!
Give me my space back you gotta just
Go!

Everything comes down the memories of
You!
I Kept it in without lettin' you
Know!
I Let you go so get away from
Me!
Give me my space back you gotta just
Go!
Everything comes down the memories of
You!
I Kept it in without lettin' you
Know!
I Let you go
And now
You've become a part of me
You'll always be right here
You've become a part of me
You'll always be my fear
I can't separate
Myself from what I've done
Giving up a part of me
I've let myself become you
I've let myself become you
I've let myself become lost inside these thoughts of
you
Giving up a part of me
I've let myself become you
