No regret for the confidence betrayed
No more hiding in shadow
Cause I won't wait for the debt to be repaid
Time has come for you

Victimized, victimized, never again victimized
Victimized, victimized, never again victimized

Their acting like they want a riot, it's a riot I'll give them
As the siren climbs higher on this violent rhythm
For you snakes in the grass, supplying the venom
I aint scared of your teeth, I admire what's in em
You've been waiting in the shadows there
Thinking you're hidden

But the truth is you don't have the stomach to get em
Go on already, hit em! Yeah, you gotta be kiddin'
Wanna talk about a victim, Imma put you there with 'em!

Victimized, victimized, never again victimized
Victimized, victimized, never again victimized
Nooo!
