"Shine Brightly"

There's a girl who laughs all day
She whiles the night away with strangers
This girl's got everything
Which she gives away and wonders where it's gone
Why she feels wrong
And how much longer, she says
Will I feel this way
Shine brightly but fade
Look around you
Take care
Look around you
Be aware
There's a girl stays out all night
Chasing dreams, but she comes home wild
And how much longer, she says
Will I feel this way
Shine brightly but fade
Look around you
Take care
Look around you
Be aware
