With LKJ, it's a lot of work to decipher the lyrics. Here's
the best I can make out so far.

Once upon a time
Just like in a nursery rhyme
Before piggy turn swine
Me did wear
For my fear
On my face
Like a shield
Like a mask
An everybody think me cool and deadly

Nothing you could have said
Would have make me take it off
And if you get me nervous
I woulda just laughed it off
An everybody think me cool and deadly

But not so long ago
Just like in a picture show
Where the hero gets a blow
Me spirit gets vexed
An me get so restless
That me get careless
And go bare me mawgah(?) chest

Me never even think
That things are make outta glass
That the whole wide world coulda see
Right down to the feeling in my heart
How them twist-up
How them tie-up
How them tight-up
Oh my heart
How it cut-up
How it crawl-up
How it scar-up

It's a hard act to master you know
This smiling and skinning your teeth
When your heart swell up so till you feel it gonna bust
When you can't find the rhyme to fit the beat
When you can't find the answer for the puzzle
complete.

So (?) me take off me mask
And start for wear dark glass
But every so often
Me have to take it off
And every now and then
Me find me last
Onnu(?) ever
See me trial
See me crosses?
