Forever engraved in our Hearts  
Our Ancestors Noble and Pure  
Building our Europe, under conditions hard  
Body and Soul conditioned to endure

[Pre Chorus:]

Europe, United United!  
Ancient Lands United in Diversity!  
Earned Through Blood, Sweat and Tears  
For our Freedom and our Wealth  
Their Ancient War cry I still can hear  
Germanic, Hellenic or Celt

[Pre Chorus:]

Europe, United United!  
Ancient Lands United in Diversity!  
Unite! Unite! Unite!  
Unite! Unite! Unite!

[Chorus:]

Hated and refused, mostly by the own kind  
History re-written, ancient rights denied  
Politicians twisting facts, turning the masses blind  
So one often wonders, for whom our forefathers died  
Slavonian, Roman, Iberian or Gaul  
Empires and tribes did bravely defend  
Civilisation and Europe the Highest Goal  
Never deny your roots, Flag in the hand!

[Pre Chorus:]

Europe, United United!  
Ancient Lands United in Diversity!

[Chorus:]

Hated and refused, mostly by the own kind  
History re-written, ancient rights denied  
Politicians twisting facts, turning the masses blind  
So one often wonders for whom our forefathers died
